NEW FOR 2007!!!!!!! Another storytelling experience with a difference..... Ideal for special schools and groups working with youngsters with learning disabilities...

THE BIRTHDAY STORY EXPERIENCE!!

It's William's birthday party, and he gets loads of presents. He's in such a hurry to rip open the paper he forgets who gave him what.

How can he say 'thank you' to the right people?

An interactive story experience involving a birthday cake and candles, balloons (optional), sticky tape, a game of pass the parcel and metres and metres of wrapping paper!

The 'experience' can be a series of multisensory workshops with individual class groups, leading to an interactive, multisensory performance at the end of the day, involving the whole school. Or it can be something completely different, depending on your pupils' needs! Signing used throughout!!

Michael Jones..... Storyteller with a difference!
